

MIXERS AND AGITATORS

Adelphi manufactures a wide range of mixers and agitators for use in industrial, laboratory and catering environments.

Benchtop / wall-mounted mixer

Ideal for any application where high-speed mixing is required, these stainless steel mixers are robust, reliable, and external surfaces are generally stainless steel to help you keep them clean and looking good. They are particularly suited to preparing milkshakes, and are used for this in coffee shops, cafes, diners and restaurants throughout the UK.

They are available in 240 volt and 12 volt DC versions (240 volt as standard, 12 volt to special order). Each 240 volt version is fitted with a safety plug. It simply plugs in to a suitable socket and is ready to go.

Available as single or twin units. The single unit comes in two versions: one for standing on a counter and the other for fixing to a wall. All the mixers are simple to operate. A powerful motor is automatically switched on when the container is in position and stops when it is removed.

Item code	Model
MIX4001B	Single benchtop: 240 v, complete with one mixer beaker
MIX4200B	Twin benchtop: 240 v, complete with two mixer beakers
MIX4001W	Single wall: 240 v, complete with one mixer beaker
MIX4012B	Single benchtop: 12 v, complete with one mixer beaker
MIX4012W	Single wall: 12 v, complete with one mixer beaker

Keep you mixing!

We also offer servicing and a comprehensive range of spares for our mixers – please ask for more information. Details of our “Keep You Mixing!” service, which helps you to maintain revenue if a mixer develops a fault, are also available on request.

Beakers

Attractive stainless steel beakers are available to complement these mixers and can be customised with your branding if required.

Item code	Model
MIB4.75P	Spare mixer beaker 750ml capacity

Mobile mixers

Manufactured from 304 grade stainless steel, with 316L grade contact parts, these mixers are designed for use with any open vessel of suitable dimensions.

Available with either high-shear mixing head (shown) for mixing emulsions, or a propeller mixing head for mixing free dissolving powders and for general mixing.

The mixing head is mounted on a mobile stand with painted hydraulic cylinder (manually operated), and the control panel is IP55 rated and constructed of stainless steel. Mixers can be specified with 3 phase or single phase power options.

Safety interlocks and a motor shroud are further options.

Item code	Model	Operating rpm
CSP-HM	Mobile high-shear mixer	2900
CSP-PM	Mobile propeller mixer	1400

Integrated mixers and agitators

Adelphi can supply a wide variety of mixers and agitators, and mount them on our standard and custom vessels and containers to meet your specific requirements.

We offer high-shear mixers for mixing emulsions, propeller mixers for free dissolving powders, as well as general mixing, and slow agitators for keeping products suspended. All can be supplied in varying power and speed specifications.

Please enquire for further information.
