

### Customised process equipment

Pharma Hygiene Products can meet your needs precisely. In addition to our extensive range of standard process equipment we can supply more sophisticated process equipment, engineered to meet your exact requirements, including:

- Jacketed vessels
- Mixing vessels
- Complete processing systems
- Pressure vessels

Adapting one of our standard products often provides a cost-effective solution, but we can also design and build vessels and other equipment to your specification. Please let us know if you have a project you wish to discuss and we will arrange a discussion with one of our engineers.
