

Pharma Hygiene Products offer a range of stainless steel equipment for both private and NHS hospitals in the healthcare sector.

Instrument boxes

Manufactured from 304 grade stainless steel, these instrument boxes come complete with a lid and are polished throughout. Perforated inserts are available in some sizes.

Part number INS4225P has rounded corners rather than the usual square corners.

DOS: Discontinued once sold. Please contact our team to enquire about available quantities remaining.

Box code	Length (mm)	Width (mm)	Depth (mm)	Weight (gm)	Insert code	Insert weight (gm)
INS4160P (DOS)	160	100	30	300	N/A	N/A
INS4180P (DOS)	180	120	50	490	N/A	N/A
INS4200P (DOS)	200	100	50	515	N/A	220
INS4220P (DOS)	220	150	50	685	N/A	N/A
INS4280P (DOS)	280	180	60	1095	INS4280PI (DOS)	440
INS4225P (DOS)	225	125	50	500	N/A	N/A

Thermometer / tong jars

Manufactured from 304 grade, the body is constructed from one piece and soldered to the base. They have crevice- and pit-free interiors and are polished throughout.

Item code	Height (mm)	Diameter (mm)	Base (mm)	Weight (gm)
JAR4090P (DOS)	90	30	70	90
JAR4130P (DOS)	130	50	90	225
JAR4180P (DOS)	180	50	90	135

Kidney dishes

Manufactured from 304 grade stainless steel, these kidney dishes are of one-piece construction. They are crevice- and pit-free and polished throughout.

Item code	Length (mm)	Width (mm)	Depth (mm)	Weight
KID4025P (DOS)	250	135	45	200
KID4027P (DOS)	270	150	50	310

DOS: Discontinued once sold. Please contact our team to enquire about available quantities remaining.

Customised process equipment

Pharma Hygiene Products can meet your needs precisely. In addition to our extensive range of standard process equipment we can supply more sophisticated process equipment, engineered to meet your exact requirements, including:

- Jacketed vessels
- Mixing vessels
- Complete processing systems
- Pressure vessels

Adapting one of our standard products often provides a cost-effective solution, but we can also design and build vessels and other equipment to your specification. Please let us know if you have a project you wish to discuss and we will arrange a discussion with one of our engineers.

Pharma Hygiene Products’ range of equipment enables users to work with tablets, capsules and fluids quickly, easily and accurately.

Tablet and capsule counters

Pharma Hygiene Products supply a range of tablet and capsule counters to suit your needs.

Item code	Specification
6021100	Capsule counting tray
6020607	7" triangular tablet counter
6020610	10" triangular tablet counter
6023100	Tumatic capsule counter
6023301	Lifting-leaf tablet counter, medium
6023302	Lifting-leaf tablet counter, large

Capsule counting tray

Manufactured from 304 grade stainless steel, this simple capsule counting tray has corrugations that allow 10 rows of 10 capsules up to 8 mm diameter to be counted quickly and easily. Only suitable for capsule sizes 0 to 5.

Size 175 x 88 mm. Sold in packs of 5.

Triangular tablet counter

Our range of manual triangular tablet counters are made from 304 stainless steel. They are designed for use with round tablets and allow the user to easily see the number of tablets in each batch. They can be supplied in two sizes - 7" or 10".

Sold in packs of 5.

Tumatic capsule counter

Perspex construction for visual checking and easy cleaning.

Coated and uncoated tablets up to a diameter of 1/2" and capsules up to 3/4" long can be counted using a range of 5 interchangeable perforated plates. After filling the box, surplus tablets are poured back into the bulk container.

By partially withdrawing the slide, 5 to 10 tablets – depending on tray and tablet – are dropped into the bottom for easy dispensing into bottles. Full withdrawal dispenses 50 or 100 tablets.

Lifting-leaf tablet/capsule counter

These lifting-leaf counters are suitable for coated or uncoated tablets or capsules and, depending on diameter, can be made to count up to 100 units. Made from stainless steel, anodised aluminium and polycarbonate, these counters are made to order to match the samples provided by the customer.

The counter is used like a scoop and pushed into a pile of tablets or capsules. The requisite number of units falls into the holes and the excess is shaken off. The counter is then tilted back and used as a chute for filling bottles.

*Size and count depends on unit dimensions. Please enquire for more information.

Capsule fillers

Pharma Hygiene Products supplies a range of high quality manual capsule fillers that are designed to enable the user to produce accurately filled capsules of a professional quality, in volumes of up to 9,000 per hour.

ProFiller capsule fillers

The ProFiller range of capsule fillers are capable of filling between 1,300 and 9,000 capsules per hour. They are easy to operate and are up to 35% faster than similar capsule fillers, due to their patented design.

Change parts and a full range of accessories, such as powder vibrators, are available for all models.

Please contact us for more detailed information and for the item numbers relating to each unit and set of change parts.

Model	Capacity (per cycle)	Max output (per hour)	Accuracy (USP/EP method)	Change parts sizes
PROFILLER 1100	100	3400	± 1–2%	000-5, EL
PROFILLER 1120	120	3600	± 1–2%	00-4
PROFILLER 3600	300	6900	± 1–3%	000-4, EL
PROFILLER 3700	300	9000	± 1–3%	000-5, EL, AAA-D
PROFILLER 3800	300	9000	± 1–3%	00-4

Suppository and pessary moulds

Hand made for over fifty years, these moulds are manufactured from brass that is double nickel plated, and are accurate to within 10% if a Witepsol base is used. Standard moulds are conical in shape and range from 0.25g to 8gm. Torpedo shaped moulds are available to order for sizes 1g to 4g only.

Conical mould Item code	Torpedo mould item code	Cavities	Size (gm)

Optional modifications for storage, mixing and transport containers (see pages 1–5)

Your key to our range of optional fitted modifications for product ranges in the preceding pages, where red symbols identify the modifications available. If you require modifications that are not listed below, please contact us to discuss them. Please note that separate Butterfly Valves and Ball Valves, supplied unfitted, can be found on pages 22–23.

T Toggle clamps.
Available to secure lids. When used with O-ring seals can provide a spill proof and airtight seal.

▶10 Graduations.
Can be added to items not graduated as standard. Stamped from the outside to maintain crevice- and pit-free interior. (Note: these graduations are normally accurate to ± 3%).

E Special etching.
Any combination of letters and numbers can be etched into the surface of any item to show serial number, contents, location, etc. Logos or other graphics can also be etched.

⚙ Mobile frames.
Ideal for moving vessels smoothly and safely without lifting and carrying. Supplied with four castors, two of which are braked. Available with straight or angled flanges.

✂ Butterfly valves (fitted).
316L grade. Available in a variety of sizes detailed on page 20.

⚙ Ball valves (fitted).
316L grade. Available in a variety of sizes, as detailed on page 20.

⚙ Taps (fitted).
316L grade. Available in a variety of sizes, as detailed on page 20.

⚙ Bibs (fitted).
316L grade. Available to add to ball valves, in a variety of sizes, as detailed on page 20.
