Benchtop / wall-mounted mixer

Ideal for any application where high-speed mixing is required, these stainless steel mixers are robust, reliable, and external surfaces are generally stainless steel to help you keep them clean and looking good. They are particularly suited to preparing milkshakes, and are used for this in coffee shops, cafes, diners and restaurants throughout the UK.

They are available in 240 volt and 12 volt DC versions (240 volt as standard, 12 volt to special order). Each 240 volt version is fitted with a safety plug. It simply plugs in to a suitable socket and is ready to go.

Available as single or twin units. The single unit comes in two versions: one for standing on a counter and the other for fixing to a wall. All the mixers are simple to operate. A powerful motor is automatically switched on when the container is in position and stops when it is removed.

Item code	Model
MIX4001B	Single benchtop: 240v, complete with one mixer beaker
MIX4200B	Twin benchtop: 240v, complete with two mixer beakers
MIX4001W	Single wall: 240v, complete with one mixer beaker
MIX4012B	Single benchtop: 12v, complete with one mixer beaker
MIX4012W	Single wall: 12v, complete with one mixer beaker

Keep you mixing!

We also offer servicing and a comprehensive range of spares for our mixers – please ask for more information. Details of our "Keep You Mixing!" service, which helps you to maintain revenue if a mixer develops a fault, are also available on request.

Beakers

Attractive stainless steel beakers are available to complement these mixers and can be customised with your branding if required.
